

Manchester Area Merchants Association M.A.M.A.

TIPS from your local Manchester Merchants

This is a sample of some questions I receive from time to time about computers, hosting and websites. You can find more on my website at <http://www.acepc.com>

Q. What is a firewall and do I need one?

A. A firewall can come as hardware or software, the most common is software and if you have Windows XP or Vista it comes with a firewall application. Do you need one? No. BUT without one you stand a good chance of getting uninvited programs (Mal-ware, Virus and even Hackers).

For more tips or if you have question about websites or hosting visit my website.
